

Waste Management Legislation (Duty of Care)

The principle aim of this course is to introduce and provide an overview of the Duty of Care legislation to individuals. The course will assist candidates in developing methodologies for implementing the Duty of Care legislation on site, and to provide examples of what could happen when the law is ignored.

Who is it For?

All employees who are new entrants to the Waste Management Industry or for those who have responsibilities in the production, transport, handling, treatment and disposal of waste.

How does it Work?

The course consists of a presentation, workshop and short case studies and is delivered in a half-day. It can be run at either your site, if numbers allow, or at our training centre located in Redditch.

What will I Gain?

Delegates will receive a Certificate of Attendance on successful completion of twenty multi-choice questions.

What are the Benefits?

At the end of the course delegates will:

- ✓ Describe the various terminology used throughout the course
- ✓ Have an awareness of the existence of Duty of Care
- ✓ Have in depth knowledge on where information for Duty of Care can be found
- ✓ Disseminate information on Duty of Care to others
