**Globally recognised health, safety
and environmental qualifications**

The NEBOSH National General Certificate qualification has been recognised for many years as an excellent introduction to the fundamentals of occupational health and safety. The NEBOSH National Certificate in Environmental Management is designed to provide a similarly sound foundation in environmental management.

‘This new environmental management qualification will assist general managers, who have responsibility for managing environment issues, as part of their day to day duties. As such I welcome this latest initiative from NEBOSH’

Peter Coyle, Director of Operations, Energy Networks Association

What kind of people take the NEBOSH Certificate in Environmental Management?

Managers, supervisors and employees based in the UK, who have responsibility for managing environment issues, as part of their day to day duties. The qualification focuses on UK law and environmental management systems. It also provides a sound basis for progression on to the NEBOSH National Diploma in Environmental management.

What are the benefits for the organisation?

The NEBOSH National Certificate in Environmental Management, will benefit companies who are seeking to implement effective environmental management systems, ensuring that line managers have a sound understanding of the principles of managing environmental risk. This qualification is relevant to all industry sectors.

NEBOSH accredited course providers offer a variety of course formats enabling candidates and employers to arrange training around the needs of the business. Many NEBOSH training providers will offer in-company courses, to allow the inclusion of material specifically relevant to the organisation’s workplace.

What does the course cover?

It covers the practical issues of managing environmental risk. The syllabus takes a risk management approach based on the best practice and international industry standards, including:

- Environmental Management Systems and Impact Assessments
- Sources and use of energy and energy efficiency
- Control of pollution
- Planning for and dealing with environmental emergencies

Where can I take a course leading to the NEBOSH Certificate in Environmental Management?

Details of training providers operating across the UK and overseas are on our website.

These training providers offer courses to fit around your requirements:

- Distance or blended learning
- Day or evening courses over a number of weeks
- Block release or modular courses

How is the course assessed?

Students are assessed by a written examination and a practical Environmental Review of the student’s own workplace.

How much does it cost?

Course fees are determined by your training provider and vary depending on the format of the course. Please contact providers for details.
